

design briefs

What I want to do?

I will build a website that's talking about the social problems and the reality lost of life with the main visual of video game.

What is the target market?

Young profastion, designer, magazine editor.

What they want?

eyes catching, interesting point of view, more information.

Where should I start?

research the history of the video game, what is happening around the world, what problems does people care and interested.

What is my aim?

express my feeling to some social things and explore the possibility to the graphic design.

Analysis

I think the web should look like
.....
.....so I will get
more information on

.....
..... try to make the look and feel as
.....
.....
..... end.
